

eVoucher & RideShare Transportation Assistance Application

Modern Cloud solution for creating and managing programs for seniors, people with disabilities, veterans, and non-emergency medical transportation.

The eVoucher and RideShare Solution is an end-to-end solution for agencies, drivers, and clients that streamlines the creation and administration of voucher transportation programs. Increase mobility, bridge geographical gaps, ensure compliance, and reduce administrative costs 10x vs. paper-based programs.

- **Easy:** Fast to implement and easy to use with little to no training.
- **Secure:** Role-based access, HIPAA & PII compliant Audit trails for accountability.
- **Flexible:** Supports Client or agency-provided drivers.
- **Versatile:** Manage multiple funding sources, including public (5310, 5311, etc.), private & self-pay.
- **Fraud-Resistant:** Using GPS tracking and secure codes.

For Agencies

- Configure and manage programs, funding, clients, drivers, and reimbursement rates.
- Automate operations of rides, vouchers and payments, communications, and trip verification
- Alerts dashboards & compliance reporting.

For Clients

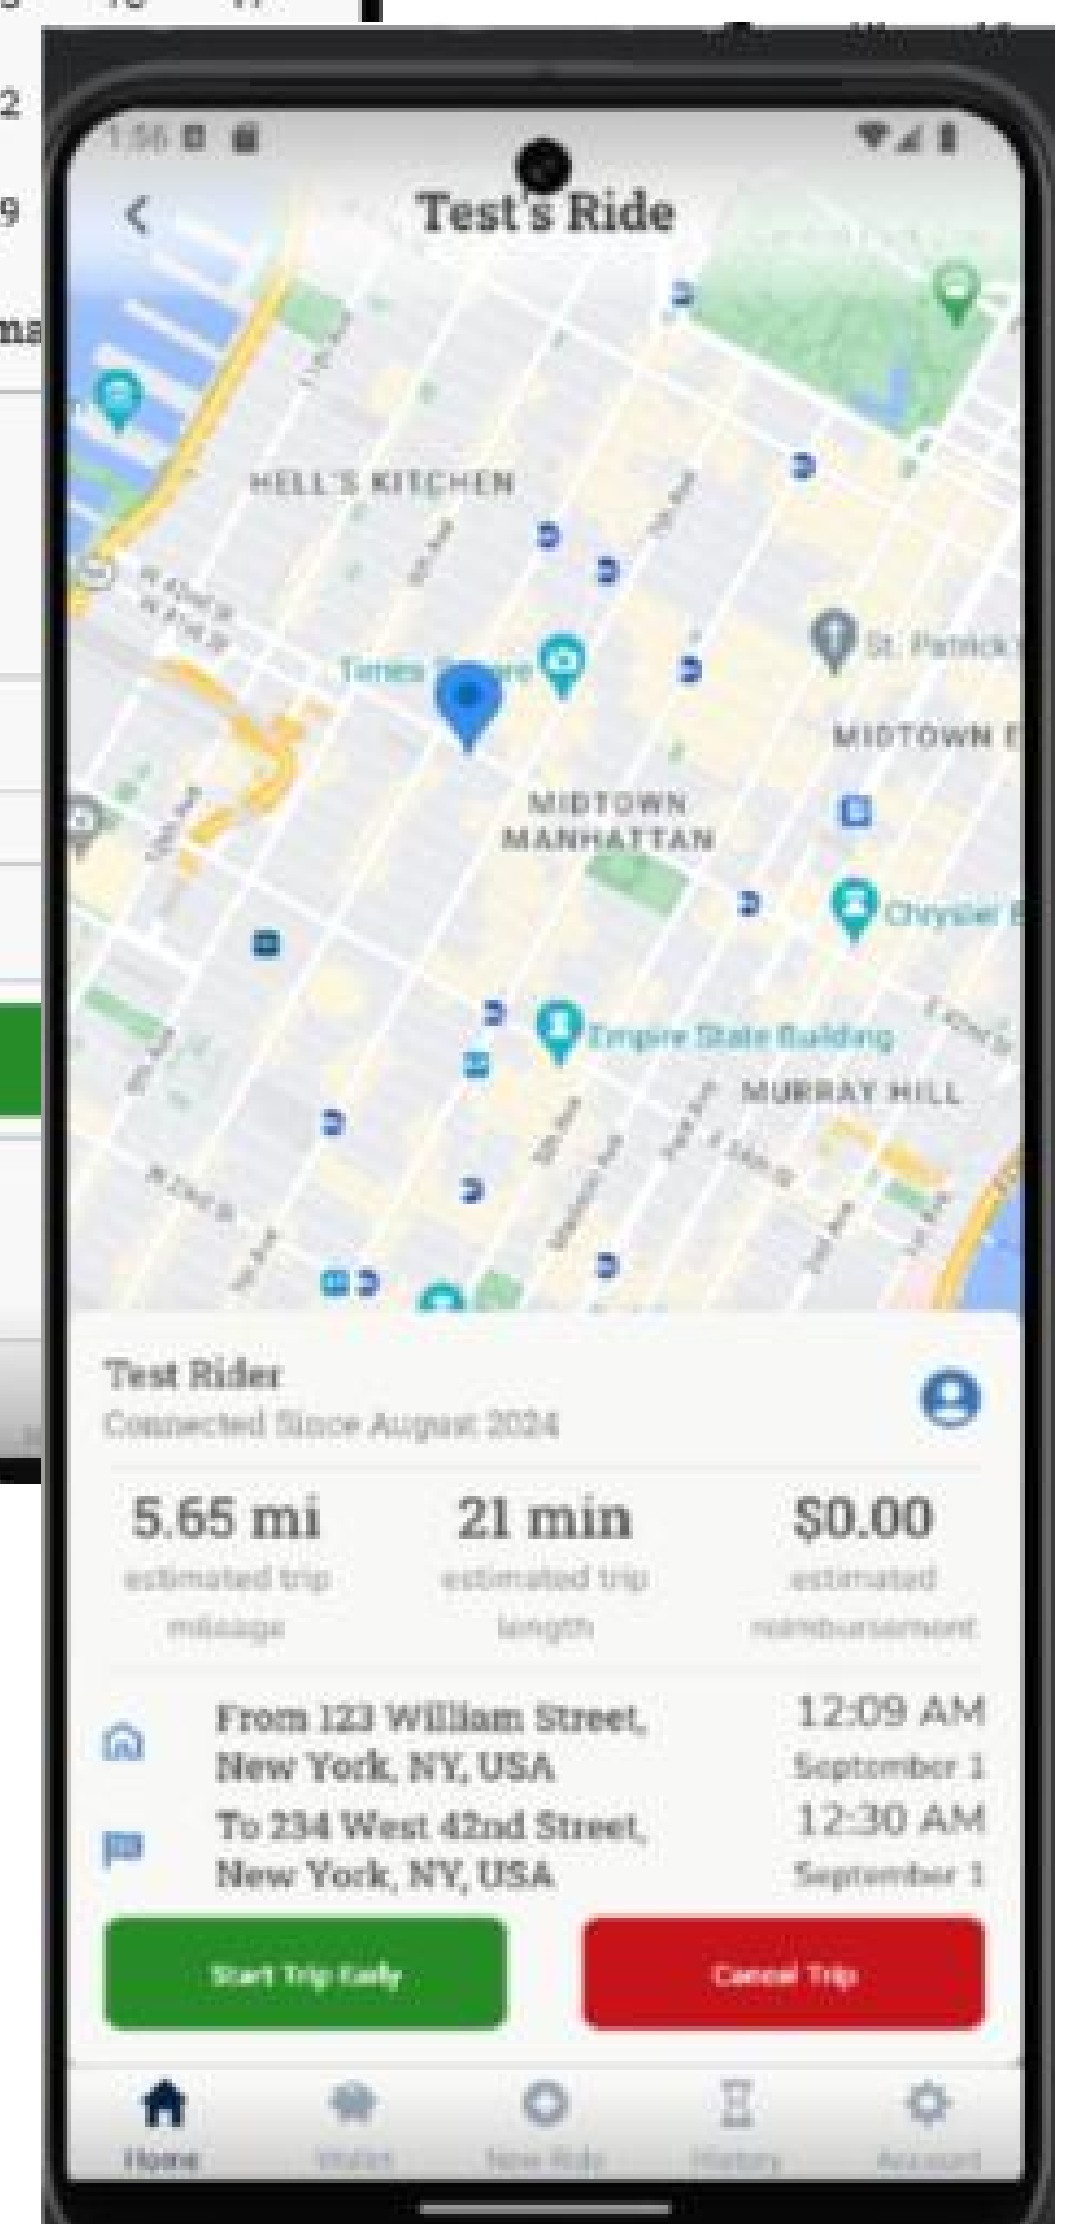

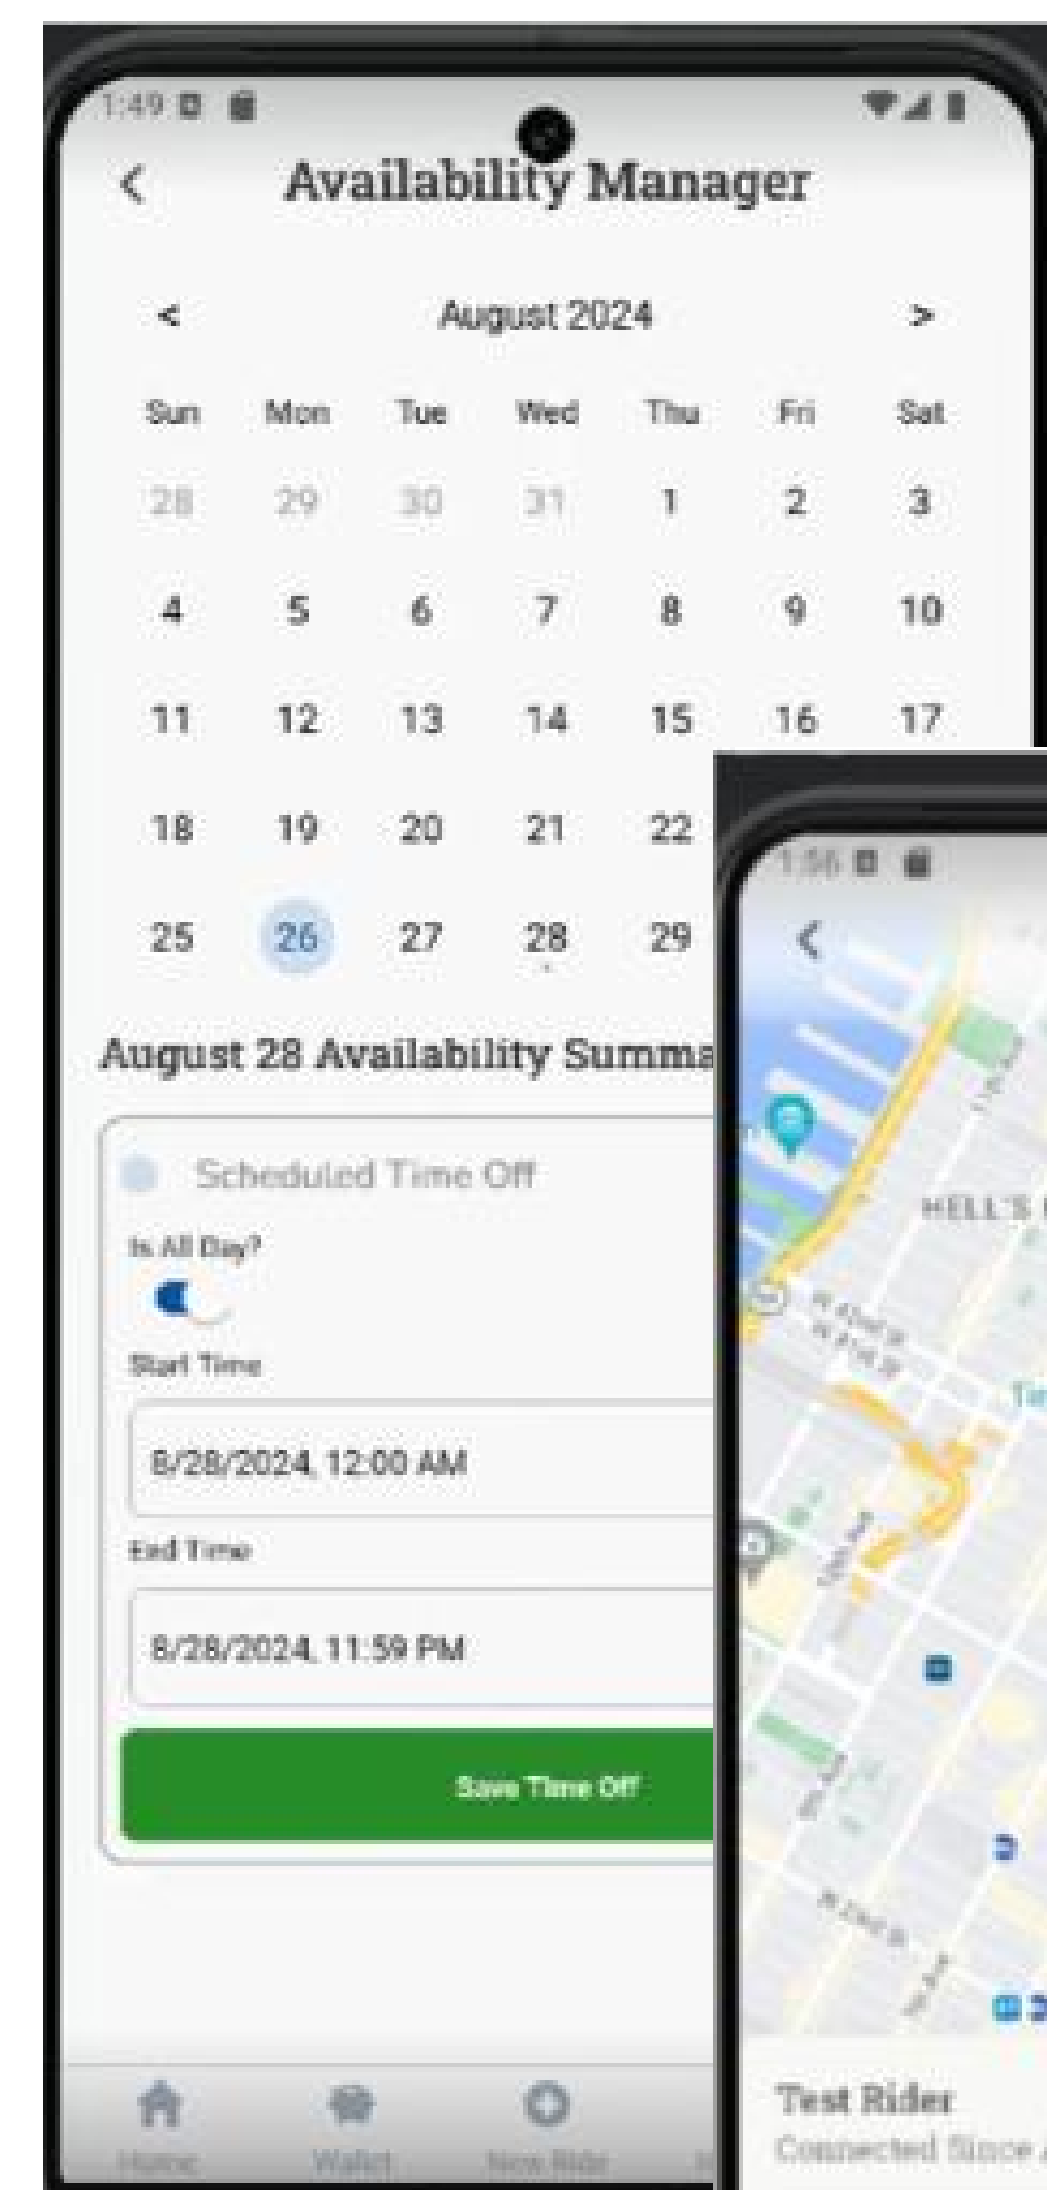

- Book rides easily; verify trips with GPS or codes.
- Real-time GPS trip tracking and alters
- View trip status and funding notifications.

For Drivers

- Accept or decline trips; secure trip validation.
- Manage availability and required documents.
- Manage payment distributions

Developed with Utah Transit Authority in partnership with Florida-based CommHIT, eVoucher aims to provide the easiest and most cost-effective way to create and manage transportation assistance programs for your community.
